1. About this policy

This Privacy Policy explains how SRIQ Corporation (Pvt) Limited, No 45 1/1, Layard's Road, Colombo 05, Sri Lanka ("SRIQ", "we", "us" or "our") collects, uses and protects personal data in connection with BestCV, a recruiting application for Microsoft Power Platform, and the BestCV pages on our website.

This policy should be read together with the BestCV Terms and Conditions. Words defined in those Terms have the same meaning here.

2. BestCV runs in the Customer's own environment

BestCV is installed in the Customer's own Microsoft Power Platform environment. This means:

- job requests, job posts, candidate records, CV files, AI scores and settings are stored in the Customer's own Microsoft Dataverse database;
- CV text is processed by the Azure OpenAI and Azure AI Document Intelligence resources in the Customer's own Azure subscription;
- application emails are received and sent through the Customer's own Microsoft 365 mailbox; and
- SRIQ does not host BestCV, does not receive candidate or employee data from BestCV, and has no access to the Customer's environment.

For all data processed in BestCV, including candidate personal data, the Customer is the data controller and is responsible for complying with data protection law. Microsoft, and LinkedIn if the Customer uses it, act under the Customer's own agreements with them. Candidates who want to know how their data is used, or who want to exercise their rights, should contact the employer that received their application.

3. Data BestCV processes in the Customer's environment

For transparency, BestCV is designed to process the following data inside the Customer's environment. SRIQ does not receive any of it.

- Candidate name, email address and phone number, taken from the CV and the application email, to identify and contact the candidate.
- The CV file and CV text, to review the application.
- AI summaries and match scores, created by the Customer's Azure OpenAI resource, to support the human reviewer.
- HR decisions, comments and the name of the reviewer, entered by the Customer's Users.
- Job posts and job images, created by the Customer's Users and Azure OpenAI.
- Company details and the HR manager's name and email address, entered by the Customer's administrators for settings and notifications.

BestCV does not extract or score gender, age, ethnicity, religion, disability, marital status or other special categories of personal data. The Customer decides how long records are kept and when they are deleted.

4. Data SRIQ collects

SRIQ collects only the limited personal data it needs to sell, license and support BestCV:

- **"Business contact details"** means name, work email address, company name, job title and phone number, when someone selects "Contact me" or acquires BestCV in Microsoft Marketplace, contacts us, or signs a Subscription Agreement.
- **"Microsoft Marketplace information"** means when a Customer acquires or uses BestCV through Microsoft Marketplace, Microsoft may share the Customer's contact information, transaction details and usage information with us as the publisher.
- **"Licence information"** means the company name, licence key, number of licences, subscription dates and the Microsoft tenant or environment identifiers needed to issue and check a licence key. Licence information does not include any candidate data or Customer Data.
- **"Billing information"** means invoice details, payment records and tax details. We do not store card numbers.
- **"Support information"** means the content of support requests and any screenshots or files the Customer chooses to send us. We ask Customers not to send candidate data, passwords or service keys in support requests.
- **"Website data"** means technical data such as IP address, browser type and pages visited when someone visits sriqcorp.com, as explained in the website's cookie notice.

5. How and why we use this data

We use the data described above only to:

- respond to enquiries and prepare quotes and contracts (to take steps at the person's request before entering a contract);
- issue, manage and check licence keys, and provide BestCV under the Subscription Agreement (to perform our contract);
- invoice, collect payment and keep accounting records (to meet our legal obligations);
- provide support and tell Customers about updates, security issues and changes to our terms (to perform our contract and for our legitimate interest in running a secure service);
- run, secure and improve our website and BestCV (for our legitimate interests); and
- comply with the law and protect our legal rights.

We do not sell personal data, do not use it to build advertising profiles, and do not use it to train AI models. We will only send marketing emails where the law allows it, and every marketing email will include a way to unsubscribe.

6. Sharing

We share personal data only:

- with service providers that help us run our business, such as email, hosting, accounting and payment providers, who may use it only to provide their services to us and must keep it confidential;
- with Microsoft, where needed to list and manage BestCV in Microsoft Marketplace and Partner Center;
- with professional advisers, such as lawyers and auditors, under a duty of confidentiality;
- with a buyer or successor if our business is sold or reorganised, under the same protections; or
- when the law requires it, or to protect our rights, safety or property.

7. International transfers

SRIQ is based in Sri Lanka, and our service providers may process data in other countries. When we receive or transfer personal data across borders, we use contractual safeguards and access controls to protect it, as required by applicable data protection law.

8. Retention

- Business contact, licence and billing data: for as long as the customer relationship lasts, plus 6 years for accounting and legal purposes.
- Support requests: 2 years after the request is closed.
- Enquiries that do not lead to a contract: 2 years after the last contact.
- Website data: as stated in the sriqcorp.com cookie notice.

After these periods, we delete or anonymise the data.

9. Security

We limit access to personal data to staff who need it, protect our accounts with multi-factor authentication, and use encryption where available. We never ask for passwords or service keys in support requests. No system is completely secure, so the Customer remains responsible for securing its own environment, keys and credentials, as set out in the Terms and Conditions.

10. Your rights

Depending on the law that applies to you, including the Personal Data Protection Act No. 9 of 2022 of Sri Lanka and, where it applies, the EU or UK GDPR, you may have the right to:

- ask for access to, or a copy of, the personal data SRIQ holds about you;
- ask us to correct or delete it;
- object to, or ask us to restrict, how we use it;
- ask for your data in a portable format;

- withdraw consent, where we rely on consent; and
- complain to a data protection authority.

To make a request, email connect@sriqcorp.com with the subject "Privacy request". We may need to confirm your identity, and we will reply within the time the law requires. For candidate data stored in an employer's BestCV environment, please contact that employer, because SRIQ does not hold that data.

11. Children

BestCV and our website are intended for businesses and are not directed at children. We do not knowingly collect personal data from anyone under 16.

12. Changes to this policy

We may update this policy from time to time. We will publish the updated policy on this page with a new "Last updated" date and, for material changes, notify Customers by email.
